CERTIFICATES

- Completed Project Internship at WOLFERS TECH company.
- Completed Fullstack Web Developer course at NIRMAAN Organisation.
- Completed core Java course at QUALITY THOUGHTS Institution.
- Completed Wordpress course on UDEMY.

PROJECTS

- **Music websites**

  Created a music website by using Html,Css and JavaScript.

- **A Gesture-based Tool for Sterile Browsing of Radiology Images**

  Use of computer keyboards and mouse by doctors and nurses in intensive care units (ICUs) is a common method for spreading infections. In this project, the use of hand gestures as an alternative to existing interface techniques, offering the major advantage of sterility.

- **Real time dashboard**

  A real time dashboard features visualizations that automatically update with current and historical data, enabling trend identification and efficiency and monitoring.

ADDITIONAL SECTION

- Coordinated National Technology day event in my college.

- Participated in Internal Hackathon held in our college conducted by Smart India Hackathon.

- Participated in demo stall in a national level technical symposium conducted by our college.
